**Smart
Heated
Apparel**

by
UNO[®]
APPAREL

About us

Welcome to our world !
We are **Uno Apparel**, a leading supplier of smart and connected apparel and workwear with multicultural origins.

With our headquarters in Paris, France, we have offices in Singapore, Malaysia, Hong Kong and Mainland China to support sourcing, customizing and production of fabrics, apparel and accessories for our worldwide customers.

What we offer to you

Uno Apparel offers to you a strategic approach and 360° consulting service, thus helping you to select and to design an

appropriate assortment. We design your unique custom made apparel, a true vector of advertising and image for your company, aiming to optimize your global visual communication.

Our know-how is complete:

Uno Apparel offers you a wide collection of ready to sign apparel to enhance your professional image.

We also design your apparel according to your unique needs. With Uno Apparel, you are just a few clicks away from designing unique attire to boast your brand name. We give you options: you determine what styles, colors and materials best appeal to your needs.

We offer to you a possibility to choose:

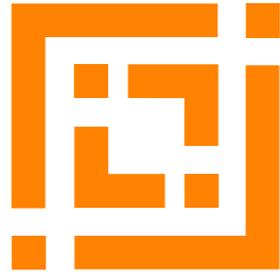

- we produce custom made apparel according to your own specifications and requirements,
- or our **teams of professional stylists** develop a unique design for your corporate visual identity.

Our goal and commitment

Our goal is to meet your communication and marketing requirements by offering quality apparel and accessories within your budget and adapted to current and future trends.

Our manufacturing is rapid and qualitative, and logistics is fast and reliable. Our objective is to offer you a real added value at competitive price.

We also take care of the environment. We believe in visual communication based on ecological ethics and sustainable development. That is why we have created a special rPET range, entirely dedicated to 100% recycled products responding to the highest world standards.

Thermalli

WE ARE PLEASED TO PRESENT YOU
THERMALLI, OUR UNIQUE AND
INNOVATIVE BRAND OF HEATED
PARKAS, JACKETS AND BODYWARMERS
WITH AN INTEGRATED SMART HEATING
MODULE.

SPECIALLY DESIGNED FOR CORPORATE,
OUTDOOR, SPORTS AND WORKWEAR.

**Carbon nanotube heating film
with button activation system.**

25-45°C degree intelligent warming.

**Smart temperature controller with 3 heating levels
(high, medium and low).**

Heating time: if you choose the 8000MA battery, the heating time is 3-8 hours.
The larger the battery capacity, the longer is the heating period.

Every Thermalli product may be powered by lightweight removable and
USB-rechargeable battery (power bank), which may be provided by us separa-
tely.

5V power bank (output 2.1A) is required to drive our heated garments.

Maximum power: 7.5 Watt. E-current - 1.5A. Voltage: 5V.

You can customize these unique products according to your own needs (style
and overall design, colors and prints, different position of controller and / or of
heating elements, etc.).

The heating elements are certified and **comply with European CE and RoHS
standards.**

OEM and ODM services accepted.

Settings:

- Press and hold the button for 2 seconds until the light turns on.
- Click to switch the temperature mode.
- Change the temperature mode with each click in the cycle.
- Press and hold for 2 seconds to turn off.

Washing:

Hand wash / washing machine at 30°C.

Please comply to chemical suppliers recommendations for specific

textile categories. Avoid use of bleaching agents on colored textiles.
Avoid use of softeners.

Do not use: Alkali boosters, optical brighteners, bleaching agents, detergents that contain free sodium or potassium hydroxide, solvenated surfactants. Avoid use of softeners.

Disinfection: please check according to the local legislation and chemical supplier.

Drying process: hang dry. No dry cleaning.

Zippers: close any zippers before washing.

Bodywarmers

Thermalli

Workwear and accessories

HARVEY
(UAP-TW07)

3 paneled heating harness-bodywarmer

A unique and innovative accessory on the European apparel market: a heated harness-bodywarmer with an integrated heating module.

A three paneled 5V heating module accessory, perfect for warehousing and outdoor activities. It can be worn on top of your t-shirt, shirt, windbreaker, or under your light jacket, as an intermediate layer between your garments, thus creating an additional heating for your optimal thermal comfort. And you can choose the heating regime by yourself!

Fabrics:

100% polyester + rubber foam, 96% nylon, 4% spandex, lining 100% polyester

Size chart: S M L XL

HEATED GLOVES
(UAP-HG02)

Adjustable heated gloves.
Waterproof & water resistant coated shell.
Perfect for all your outdoor activities: handling, loading / unloading, winter outdoor sports.
Ergonomic design: a natural movement curve and a sophisticated structure to keep your hands in a comfortable position all the time.
Heating zones positioned on 5 fingers as well as on the back of the hand.

Materials: Newly developed waterproof heating wire as the heating material: it has all necessary characteristics of safety, waterproof and wear resistance. The gloves' material is folding resistant, kneading resistant, easy to clean and stable in heating.
The high thickness sponge on the back of the hand ensures that the heated gloves stay warm long enough.

Safe and reliable: USB power supply, 3.6-5V, which

can also be powered by the USB battery box. Six rechargeable AA batteries with input voltage 3.6-5V are needed to ensure the heating for each glove.

Energy saving: Equipped with high-quality heating materials, the heating temperature can reach 42-50°C. The power is less than 5W. Thermal insulation effect is optimized.

Easy to use: The unique design of the battery makes it almost invisible, hidden inside the glove, totally convenient for any of your outdoor activities.

Heating time: Up to 6 hours of autonomy (depending on capacity of your batteries and intensity of heating).

Included in the package: a pair of gloves + a pair of battery boxes.

One size fits all.

PROTEX
(UAP-TW17)

Heated workwear parka

A unique product on the market: a fully heated workwear set (parka and trousers) with an integrated heating module.
Carbon nanotube heating film with one button activation system.
35-53°C degree intelligent warming.
Maximum power: 7.5 Watt. E-current - 1.5A. Voltage: 5V.
A long parka, for a better protection against cold and windy weather.
Fluorescent, with reflective stripes.
Windproof and waterproof.
Works with powerbank 5V which may be provided separately by us.

Fabrics:

Outshell: 100% polyester oxford 300D
Lining: polar fleece 250 GSM

Size chart: S M L XL

Heated Workwear Trousers

Windproof and waterproof high performance workwear trousers.
Two heated zones located on the knees.
Fluorescent and with reflective stripes.

Fabrics:

Outshell: 100% polyester oxford 300D
Lining: polar fleece 250 GSM

Size chart: S M L XL

HEATED UNDERWEAR

**HEATED THERMAL UNDERWEAR
MEN**
(UAP-HU01)

Material:

95% Cotton + 5% Spandex, Carbon fiber wire. Intelligent temperature control, heated on knees, back and waist.

Sizes: M-3XL

**HEATED THERMAL UNDERWEAR
WOMEN**
(UAP-HU02)

Material:

95% Cotton + 5% Spandex, Carbon fiber wire. Intelligent temperature control, heated on knees, back and waist.

Sizes: M-2XL

**HEATED THERMAL UNDERWEAR
MEN**
(UAP-HU03)

Material:

95% Cotton + 5% Spandex, Carbon fiber wire.

Sizes: M-3XL

**HEATED THERMAL UNDERWEAR
WOMEN**
(UAP-HU04)

Material:

95% Cotton + 5% Spandex, Carbon fiber wire.

Sizes: M-2XL

POWER (UAP-TW01)

Heated workwear parka

A unique product on the workwear market: a smart set of heated parka with its trousers.

Carbon nanotube heating film with one button.

38-53°C degree intelligent warming:
- white led light - 38°C
- orange light - 46°C
- red light - 53°C

Maximum power: 7.5 Watt. E-current - 1.5A. Voltage: 5V.
Fluorescent and with vertical and chevroned crossed reflective strips

Two-toned. Breathable, wind and waterproof. Padded. Lining in sleeves.

High collar. Ribbed inner collar. Lined hood. D-ring.

Fastening with zip and storm flap with press studs. Zipped inner pockets. Ergonomically shaped sleeves allow high freedom of movement. Front pockets with zip.

Works with power bank / battery, not included in the offer; may be provided separately by us.

The heating elements are certified and comply with European CE and RoHS standards.

Fabrics:

Outshell - 100% Polyester oxford
Lining - 100% polyester 300T for body, 100% polyester 210T for sleeves

Size chart: S M L XL

Workwear trousers (without heating module)

Breathable, windproof and waterproof high performance workwear trousers. Fluorescent and with reflective strips. Light lining. Elastic and drawstring at waist. Belt loops. D-ring. 120 g artificial down.

Fabrics:

Outshell - 100% Polyester oxford
Lining - 100% polyester 300T

Size chart: S M L XL

Powerbank

HEATED JACKET POWERBANKS

We present you two models of removable, lightweight and rechargeable powerbanks, necessary to power your Thermalli parka or heated vest.

Model SA2-5200

Capacity: 5 200 mAh

Weight: 102 g

Estimated recharge time: 3 hours

Input: 5V / 2.1A

Output: 5V / 2.1A

Dimensions: 80*80*22.5 mm

With your logotype printing, upon request

Model SA2-10000

Capacity: 10 000 mAh

Weight: 182 g

Estimated recharge time: 6 hours

Input: 5V / 2.1A

Output: 5V / 2.1A

Dimensions : 92*63*23 mm

With your logotype printing, upon request

If you choose the 5200 mAh powerbank, the heating time is 3-8 hours. The larger your powerbank capacity, the longer its heating period. The heating time also depends on the intensity of the heating mode of your heated parka / vest (high / medium / low mode).

A 5 V (2.1 A) power supply is required for these powerbank models.

Maximum power: 7.5 Watt. Current: 1.5A. Voltage: 5V.

You can customize our powerbanks with your logotype or other distinctive visual elements, according to your needs.

Settings:

- Press the small activation button on the side of your powerbank, until the little lights turn on.
- The lights on show you the charging status of your powerbank.
- Connect your powerbank to your heated parka or bodywarmer, using the special cable equipped with a USB port, located in the inside or outside pocket (depending on the model) of your Thermalli heated garment.
- Press again the small button on the powerbank if you wish to turn it off.
